8672	Red Heifer Farms LLC <i>Jay DeLouche</i> <i>DeQuincy, LA</i>	<p>We raise registered polled red and black Dexter cattle the way God intended, naturally on grass. We also raise some unregistered cattle for those interested in Dexters but who don't have reason to have a registered animal, i.e. for just a good dairy or breeding cow/bull for the family homestead. Horned animals are sometimes available for those of us who don't mind the "traditional" Dexter, as we believe all Dexter lovers are welcome at our farm. As one of the very few breeders in Louisiana with probably one of the largest herds in the state, we are located close to the Texas border and can serve prospective owners in both states. We look forward to hearing from you and are always excited to share our love of Dexter cattle with anyone with an interest.</p>	<p>337-842-0586 jay@fhdfirm.com</p>
