<p>Jeremy Biggers #12308 Biggers Farm & Ranch</p>	<p>UNREGISTERED Dexter Heifer: DOB: 12/13/2020 Black Polled Heifer Wendy is very gently and curious. Will come to you if you have feed. SHE is in the process of being halterbroke and is coming along great! Wendy has a nice conformation, her depth of body and weight being perfect for her size. Her Sire RNR Gabriel is polled, red and is also A2A2. Wendy's dam is unregistered, polled and dun. This young heifer comes with a nice amount of beef on her, staying plump on just grass, and will be a great milk producer in the future like her dam.</p>	<p>HEIFER \$700 OBO</p>	<p>Danbury, Texas (South of Houston)</p>	<p>hbtxlonghorns@gmail.com and/or Bfr.sales2017@gmail.com</p>
<p>Felipe Garduno #11716 L Metal Ranch</p>	<p>UNREGISTERED: Dexter Heifer DOB: 03/28/21 Polled Black Dexter heifer Dam has amazing udder and disposition. Sire: Biggs James T Kirk #047116. Though not registered, this heifer lacks no quality. Already very friendly and will likely inherit her mom's nice udder.</p>	<p>HEIFER \$850</p>	<p>Felipe Garduno: 512-317-9943</p>	<p>Contact Directly for pictures or more information.</p>

Eric Kleinhenz #7323	<p>UNREGISTERED Dexter Bull Red Polled Bull 2 1/2 years old Proven Herd Sire. We are replacing him with a registered bull with known A2A2 milk, as we do milk and have children who need the A2A2 milk. The bull is well put together, gentle and easy to handle. We have children that are in an around his paddock on a daily basis. All of our stock originated from Registered Dexters purchased from Bar None's Dexters. We use our Dexters for milk and meat so we do not fine it necessary to registere offspring. ADCA member since 2010.</p>	BULL \$950	Manvel, Texas (15 miles South of Houston)	Call or Text 281-389-7325

<p>Bob Russell #10237 Last Chance Ranch</p>	<p><u>UNREGISTERED</u> Dexter Cow/calf pair 4 years old Red cow (5 mo old Red heifer at aside) Georgia is a lovely cow! Georgia's dam is red with too many white markings and was thus never registered. Georgia is solid red but can not be registered because her dam is not. Georgia has dropped 2 calves that were solid red with no white markings. Currently Georgia has a solid Red 5-month old heifer at her side (also remains unregistered.) Georgia is a sweetheart and is pasture tame. She will eat out of your hand and is a good mother. The pair needs to go together as the calf is still nursing. What a wonderful deal on 2 female Dexters to add to your herd.</p>	<p>COW/Calf Pair \$1000</p>	<p>Bartlett, TX (Between Waco and Austin)</p>	<p>512-629-8696 br1z1z@att.net</p>
